BILL DEFINITIONS

KWH - Kilowatt Hour - energy consumed if 1,000 watts (ex. ten 100w bulbs) are used for one hour.

Meter Multiplier - Converts recorded use to total use on meters that are designed to only record partial use.

Basic Service - The minimum daily cost for a 24/7 connection to the electric system.

Delivery Service Adjustment - Effective 1/1/17 - Charge or credit applied to balance actual expenses with budgeted expenses. Creates long-term rate stability by accounting for unpredictable costs, including storm response.

Distributed Energy Resources (DER) Charge - the cost of customer programs such as energy efficiency and conservation, as well as new technologies and methods for producing and storing energy.

Revenue-Based PILOTS (Payments in Lieu of Taxes) - State and local taxes on utility revenues. This does not include property taxes assessed on the electric system, which make up 15% of your bill.

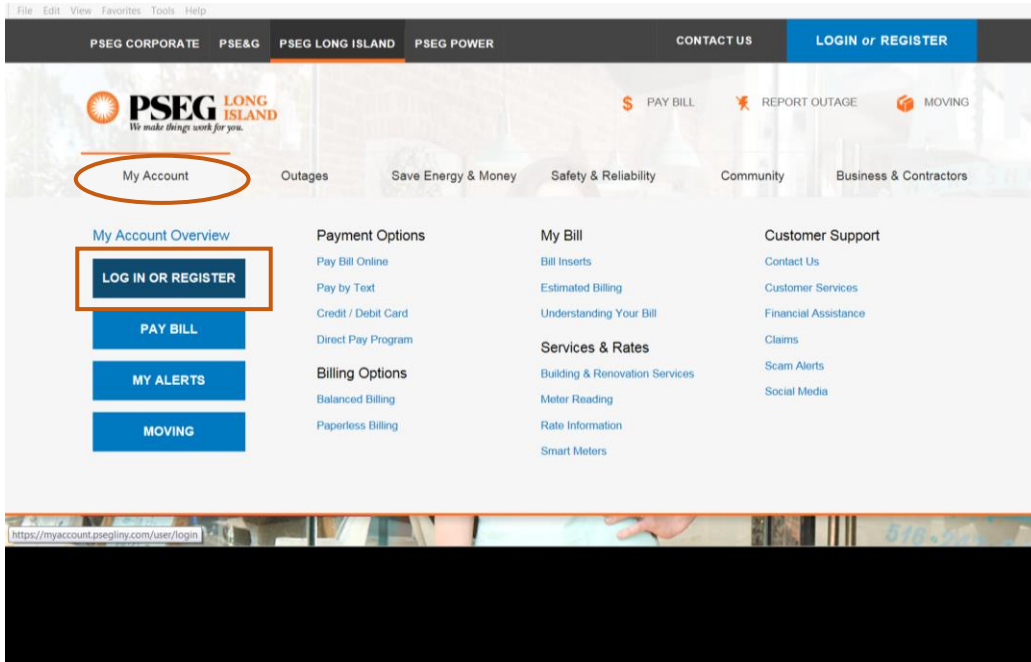

Revenue Decoupling Adjustment Effective 3/1/16 - Charge or credit applied to balance actual delivery revenue with the approved revenues level. Encourages energy efficiency by breaking utility dependency on sales revenue.

NY State Assessment - Assessment imposed on all utilities and collected on behalf of the State.

Suffolk Property Tax Adjustment - The amount collected by PSEGLI from Suffolk County customers representing the overpayment of property taxes to the Shoreham taxing jurisdictions from a court-ordered legal settlement dated January 11, 2000.
